## WILD THROWS TAILGATE PARTY FOR NEW SPORT SKYZONE

Last Wednesday the Orleans Arena hosted the official world premiere of "the first truly original sport in over 100 years", Skyzone. In recognition of such a truly groundbreaking event, Wild 102 camped out in the parking lot at the Orleans and threw Skyzone's first official tailgate party. In a showing of support for this momentous occasion, listeners dropped by to enjoy BBQ hot-dogs, Port-of-Sub sandwiches and other refreshments. Wild 102's own Loco was on the scene along with the Wild 102 Street Crew giving away CD's, t-shirts, posters, bumper stickers as well as tickets to see Skyzone. We were even hooking people up to watch the game in style as our guests in the Orleans Wild 102 VIP Skybox suite. Tech N9ne's street team stopped by to show their support, hang out with listeners and give away Tech's newest CD "Absolute Power" along with tickets to see him live in concert along with Busta Rhymes and DMX at the Orleans Arena.

Inside the arena the action was fast and furious as the Las Vegas High Rollers took on the Los Angeles Quakes for the inaugural game. After getting accustomed to the futuristic playing field and the intense game play, the crowd began to get into the game and even chose sides showing rousing support for the Vegas home team. They were rewarded with numerous regulation game balls that were randomly launched into the audience from the Skyzone canon. After the game fans waiting in line for up to an hour just to have their ball signed by the players. I think we've got a new league of stars on our hands and judging by the exciting game-play and the crowds enthusiastic reactions, they're definitely

welcome. Log onto [www.skyzonesports.com](http://www.skyzonesports.com) to check for upcoming events and learn more about the sport and the players. We hope to see more from the folks at Skyzone Sports in the near future. Stay Tuned!!!
